Legend

- 1 Evacuation center to use in case a warning is announced due to heavy rains, floods, wind storms
- 2 Plaza to gather at after earthquakes & fires / Evacuation Center for large-scale disasters
- 3 Evacuation center other than the designated evacuation center
- 4 Locations of wireless systems to transmit one message throughout municipality
- 5 Seismically resistant water storage tanks for drinking and other purposes
- 6 Obu City Hall
- 7 Fire Headquarters / stations
- 8 Police Station / Offices / Substations
- 9 Areas at risk of steep slope failure
- 10 Areas at risk of landslides
- 11 Areas at special risk of landslides
- 12 Tokai Torrential Rain Record
- 13 Autonomous district boundary
- 14 City boundary
- 15 Primary emergency transport roads (Prefectural)
- 16 Secondary emergency transport roads (Prefectural)
- 17 Emergency transport roads (Municipal)
- 18 Emergency transport roads

This map's Tokai torrential rain record shows the flooded areas based on the issuance history of the "Proof of Disaster" issued for the building flooded by heavy rains in the Tokai region on September 11 - 12, 2000. For this reason, even places that were not actually flooded may be displayed as flooded areas.

If further details need to be confirmed, contact the Obu City Hall Crisis Management Division.

For actual heavy rains, pay attention to the way rain falls and flooding status, and evacuate immediately as soon as danger is felt.

To prepare for emergencies, write down the route from your home up to the evacuation center, your family's contact details, etc., on the disaster prevention map and confirm with everyone.
